

## Chapter 3

### Reconstitution of a Partnership Firm – Retirement/Death of a Partner

#### EXERCISE-3.1

#### 1 Marks

1. Anita, Jaya and Nisha are partners sharing profits and losses in the ratio of 1:1:1. Jaya retires from the firm. Anita and Nisha decided to share the profit in future in the ratio 4 : 3. Calculate the gaining ratio.

**Answer** Gaining ratio = New ratio – Old ratio

$$\text{Anita's gain} = \frac{4}{7} - \frac{1}{3} = \frac{12-7}{21} = \frac{5}{21}$$

$$\text{Nisha's gain} = \frac{3}{7} - \frac{1}{3} = \frac{9-7}{21} = \frac{2}{21} \text{ or } 5 : 2$$

2. Azad, Vijay and Amit are partners sharing profits and losses in the proportion of 1/4, 1/8, 10/16 and Calculate the new profit sharing ratio between continuing partners if (a) Azad retires; (b) Vijay retires; (c) Amit retires.

**Answer** Share of partners =  $\frac{1}{4} : \frac{1}{8} : \frac{10}{16}$  or  $\frac{4 : 2 : 10}{16}$   
 $= 4 : 2 : 10 \text{ or } 2 : 1 : 5$

(a) If Azad retires, Vijay and Amit's share = 1 : 5

(b) If Vijay retires, Azad and Amit's share = 2 : 5

(c) If Amit retires, Azad and Vijay's share = 2 : 1

3. Calculate the gaining ratio in each of the above situations.

**Answer** Gaining = ratio New ratio – Old ratio

(a) If Azad retires

$$\text{Vijay's gain} = \frac{1}{6} - \frac{1}{8} = \frac{4-3}{24} = \frac{1}{24}$$

$$\text{Amit's gain} = \frac{5}{6} - \frac{5}{8} = \frac{20-15}{24} = \frac{5}{24}$$

$$= 1 : 5$$

(b) If Vijay retires

$$\text{Azad's gain} = \frac{2}{7} - \frac{2}{8} = \frac{16-14}{56} = \frac{2}{56}$$

$$\text{Amit's gain} = \frac{5}{7} - \frac{5}{8} = \frac{40-35}{56} = \frac{5}{56}$$

$$= 2 : 5$$

(c) If Amit retires

$$\text{Azad's gain} = \frac{2}{3} - \frac{2}{8} = \frac{16-6}{24} = \frac{10}{24}$$

$$\text{Vijay's gain} = \frac{1}{3} - \frac{1}{8} = \frac{8-3}{24} = \frac{5}{24}$$

$$= 10 : 5 \text{ or } 2 : 1$$

4. Anu, Prabha and Milli are partners. Anu retires. Calculate the future profit sharing ratio of continuing partners and gaining ratio if they agree to acquire her share : (a) in the ratio of 5:3; (b) equally.

**Answer** Anu, Prabha and Milli = 1:1:1

Anu retires.

(a) Her share  $\left(\frac{1}{3}\right)$  acquired by Prabha and Milli in 5 : 3.

$$\text{Prabha gets} = \frac{1}{3} \times \frac{5}{8} = \frac{5}{24} \text{ (gain)}$$

$$\text{Milli gets} = \frac{1}{3} \times \frac{3}{8} = \frac{3}{24} \text{ (gain)}$$

$$\text{Prabha's new share} = \frac{1}{3} + \frac{5}{24} = \frac{8+5}{24} = \frac{13}{24}$$

$$\text{Milli's new share} = \frac{1}{3} + \frac{3}{24} = \frac{8+3}{24} = \frac{11}{24}; \text{ New ratio} = 13:11$$

(b) Anu's share  $\left(\frac{1}{3}\right)$  acquired by Prabha and Milli equally.

$$\text{Prabha gets} = \frac{1}{3} \times \frac{1}{2} = \frac{1}{6} \text{ (gain)}$$

$$\text{Milli gets} = \frac{1}{3} \times \frac{1}{2} = \frac{1}{6} \text{ (gain)}$$

$$\text{Prabha's new share} = \frac{1}{3} + \frac{1}{6} = \frac{2+1}{6} = \frac{3}{6}$$

$$\text{Milli's new share} = \frac{1}{3} + \frac{1}{6} = \frac{2+1}{6} = \frac{3}{6}; \text{ New ratio} = 3:3 \text{ or } 1:1$$

**5. Rahul, Robin and Rajesh are partners sharing profits in the ratio of 3 : 2 :**

**1. Calculate the new profit sharing ratio of the remaining partners if (i) Rahul retires; (ii) Robin retires; (iii) Rajesh retires.**

$$\text{Prabha's new share} = \frac{1}{3} + \frac{5}{24} = \frac{8+5}{24} = \frac{13}{24}$$

$$\text{Milli's new share} = \frac{1}{3} + \frac{3}{24} = \frac{8+3}{24} = \frac{11}{24}; \text{ New ratio} = 13:11$$

(b) Anu's share  $\left(\frac{1}{3}\right)$  acquired by Prabha and Milli equally.

$$\text{Prabha gets} = \frac{1}{3} \times \frac{1}{2} = \frac{1}{6} \text{ (gain)}$$

$$\text{Milli gets} = \frac{1}{3} \times \frac{1}{2} = \frac{1}{6} \text{ (gain)}$$

$$\text{Prabha's new share} = \frac{1}{3} + \frac{1}{6} = \frac{2+1}{6} = \frac{3}{6}$$

$$\text{Milli's new share} = \frac{1}{3} + \frac{1}{6} = \frac{2+1}{6} = \frac{3}{6}; \text{ New ratio} = 3:3 \text{ or } 1:1$$

6. Puja, Priya, Pratistha are partners sharing profits and losses in the ratio of 5 : 3 : 2. Priya retires. Her share is taken by Priya and Pratistha in the ratio of 2 : 1. Calculate the new profit sharing ratio.

**Answer** Puja, Priya and Pratistha having 5 : 3 : 2 ratio. Puja retires and her share taken by

$$\text{Priya} = \frac{5}{10} \times \frac{2}{3} = \frac{10}{30}$$

$$\text{Pratistha} = \frac{5}{10} \times \frac{1}{3} = \frac{5}{30}$$

$$\text{New share of Priya} = \frac{3}{10} + \frac{10}{30} = \frac{9 + 10}{30} = \frac{19}{30}$$

$$\text{New share of Pratistha} = \frac{2}{10} + \frac{5}{30} = \frac{6 + 5}{30} = \frac{11}{30} = 19 : 11$$

**Note** There is a mistake in question. Hence, it is assumed that Puja retires.

7. Ashok, Anil and Ajay are partners sharing profits and losses in the ratio of  $\frac{1}{2}$ ,  $\frac{3}{10}$  and  $\frac{1}{5}$ . . Anil retires from the firm. Ashok and Ajay decide to share future profits and losses in the ratio of 3 : 2. Calculate the gaining ratio.

**Answer** Ashok : Anil : Ajay

$$\frac{1}{2} : \frac{3}{10} : \frac{1}{5}$$

$$\frac{5}{10} : \frac{3}{10} : \frac{2}{10} = 5 : 3 : 2$$

Anil retires.

New share of Ashok and Ajay = 3 : 2

Gaining ratio = New ratio – Old ratio

$$\text{Ashok's gain} = \frac{3}{5} - \frac{5}{10} = \frac{6 - 5}{10} = \frac{1}{10}$$

$$\text{Ajay's gain} = \frac{2}{5} - \frac{2}{10} = \frac{4 - 2}{10} = \frac{2}{10}$$

Gaining ratio = 1 : 2

## TEST YOUR UNDERSTANDING I

Choose the correct option in the following s:

1. Abhishek, Rajat and Vivek are partners sharing profits in the ratio of 5:3:2. If Vivek retires, the New Profit Sharing Ratio between Abhishek and Rajat will be—

(a) 3:2 (b) 5:3 (c) 5:2 (d) None of these

Answer (b) 5 :3

2. The old profit sharing ratio among Rajender, Satish and Tejpal were 2:2:1. The new profit sharing ratio after Satish's retirement is 3:2. The gaining ratio is

(a) 3 : 2 (b) 2 : 1

(c) 1 : 1 (d) 2 : 2

Answer (c)

### Working Note

Gaining ratio = New ratio – Old ratio

$$\text{Rajender's gain} = \frac{3}{5} - \frac{2}{5} = \frac{3-2}{5} = \frac{1}{5}$$

$$\begin{aligned}\text{Tejpal's gain} &= \frac{2}{5} - \frac{1}{5} = \frac{2-1}{5} = \frac{1}{5} \\ &= 1:1\end{aligned}$$

3. Anand, Bahadur and Chander are partners. Sharing Profit equally on Chander's retirement, his share is acquired by Anand and Bahadur in the ratio of 3 : 2. The new profit sharing ratio between Anand and Bahadur will be

(a) 8 : 7 (b) 4 : 5 (c) 3 : 2 (d) 2:3

Answer (a)

### Working Note

Chander's share

$$\text{acquired by Anand (gain)} = \frac{1}{3} \times \frac{3}{5} = \frac{3}{15}$$

$$\text{acquired by Bahadur (gain)} = \frac{1}{3} \times \frac{2}{5} = \frac{2}{15}$$

$$\text{Anand's new ratio} = \frac{1}{3} + \frac{3}{15} = \frac{5+3}{15} = \frac{8}{15}$$

$$\text{Bahadur's new ratio} = \frac{1}{3} + \frac{2}{15} = \frac{5+2}{15} = \frac{7}{15}$$

New ratio = 8 : 7

**4. In the absence of any information regarding the acquisition of share in profit of the retiring/deceased partner by the remaining partners, it is assumed that they acquire his/her share**

**(a) old profit sharing ratio (b) new profit sharing ratio (c) equal ratio (d) None of these**

**Answer (a) Old profit sharing ratio**

## **TEST YOUR UNDERSTANDING II**

**• Choose the correct option in the following s**

**1. On retirement/death of a partner, the retiring/deceased partner's capital account will be credited with**

**(a) his/her share of goodwill  
(b) goodwill of the firm  
(c) shares of goodwill of remaining partners  
(d) None of the above**

**Answer (a) His/Her share of goodwill**

**2. Gobind, Hari and Pratap are partners. On retirement of Gobind, the goodwill already appears in the Balance Sheet at T 24,000. The goodwill will be written off**

**(a) by debiting all partners' capital accounts in their old profit sharing ratio  
(b) by debiting remaining partners' capital accounts in their new profit sharing ratio  
(c) by debiting retiring partners' capital accounts from his share of goodwill  
(d) None of the above**

**Answer (a) By debiting all partners' capital accounts in their old profit sharing ratio**

**3. Chaman, Raman and Suman are partners sharing profits in the ratio of 5:3:2. Raman retires, the new profit sharing ratio between Chaman and Suman will be 1:1. The goodwill of the firm is valued at Rs. 1,00,000 Raman's share of goodwill will be adjusted**

**(a) by debiting Chaman's Capital account and Suman's Capital Account with Rs 15,000 each.  
(b) by debiting Chaman's Capital account and Suman's Capital Account with Rs. 21,429 and 8,571 respectively.  
(c) by debiting only Suman's Capital Account with Rs. 30,000.**

(d) by debiting Raman's Capital account with Rs. 30,000.

**Answer (c)**

**Working Note**

Gaining ratio of remaining partners

$$\begin{aligned}\text{Chaman's gain} &= \text{New ratio} - \text{Old ratio} \\ &= \frac{1}{2} - \frac{5}{10} = \frac{5-5}{10} = \frac{0}{10} \text{ (No gain or loss)}\end{aligned}$$

$$\text{Suman's gain} = \frac{1}{2} - \frac{2}{10} = \frac{5-2}{10} = \frac{3}{10} \text{ (gain)}$$

**4. On retirement/death of a partner, the remaining partner(s) who have gained**

**due to change in profit sharing ratio should compensate the**

**(a) retiring partners only.**

**(b) remaining partners (who have sacrificed) as well as retiring partners.**

**(c) remaining partners only (who have sacrificed).**

**(d) none of these.**

**Answer (b)** Remaining partners (who have sacrificed) as well as partners

### EXERCISE-3.2

#### 2 Marks

1. Vijay, Ajay and Mohan are friends. They passed B (Hons) from Delhi University in June, 2013. They decided to business of computer hardware. On 1st of August, 2013, they introduced the capital of Rs. 50,000, Rs.30,000 and Rs. 20,000 respectively and started the business in partnership at Delhi. The profit sharing ratio decided between there was 4:2:1. The business was running successfully. But on 1st February, 2019, due to certain unavoidable circumstances and family circumstances, Ajay decided to settle in Pune and decided to retire from the partnership on 31st March, 2020; with the consent of partners, Ajay retires as on 31st March, 2020, the position of assets and liabilities are as follows

**Balance Sheet of Vijay, Ajay and Mohan**  
as on March 31, 2013

| Liabilities              | Amt. (₹) | Assets             | Amt. (₹) |
|--------------------------|----------|--------------------|----------|
| Capital Accounts         |          | Goodwill           | 56,000   |
| Vijay           1,80,000 |          | Stock              | 90,000   |
| Ajay           1,20,000  |          | Debtors            | 66,000   |
| Mohan        1,00,000    | 4,00,000 | Land and Buildings | 1,20,000 |
| Bills Payable            | 12,000   | Machinery          | 1,59,000 |
| General Reserve          | 42,000   | Motor Van          | 31,000   |
| Creditors                | 90,000   | Cash at Bank       | 22,000   |
|                          | 5,44,000 |                    | 5,44,000 |

On the date of retirement, the following adjustments were to be made

- (1) Firm's goodwill was valued at Rs. 1,48,000.
- (2) Assets and Liabilities are to be valued as under; Stock Rs. 72,000; Land and Buildings Rs. 1,35,600; Debtors Rs. 63,000; Machinery Rs.1,50,000; Creditors Rs. 84,000.
- (3) Vijay to bring Rs. 1,20,000 and Mohan Rs. 30,000 as additional capital.
- (4) Ajay was to be paid Rs. 97,200 in cash and the balance of his Capital Account to be transferred to his Loan Account Work out the amount

**Answer**

| Dr           |          | Revaluation Account    |          | Cr     |
|--------------|----------|------------------------|----------|--------|
| Particulars  | Amt. (₹) | Particulars            | Amt. (₹) |        |
| To Stock     | 18,000   | By Land and Building   | 15,600   |        |
| To Debtors   | 3,000    | By Creditors           | 6,000    |        |
| To Machinery | 9,000    | By Loss Transferred to |          |        |
|              |          | Vijay's Capital        | 4,800    |        |
|              |          | Ajay's Capital         | 2,400    |        |
|              |          | Mohan's Capital        | 1,200    | 8,400  |
|              | 30,000   |                        |          | 30,000 |

| Dr                     |          | Capital Account |          |                    |          |          |          | Cr |
|------------------------|----------|-----------------|----------|--------------------|----------|----------|----------|----|
| Particulars            | Vijay    | Ajay            | Mohan    | Particulars        | Vijay    | Ajay     | Mohan    |    |
| To Goodwill            | 32,000   | 16,000          | 8,000    | By Balance b/d     | 1,80,000 | 1,20,000 | 1,00,000 |    |
| To Loss on Revaluation | 4,800    | 2,400           | 1,200    | By General Reserve | 24,000   | 12,000   | 6,000    |    |
| To Ajay's Capital      | 33,829   |                 | 8,457    | By Cash (Ad Cap)   | 1,20,000 |          | 30,000   |    |
| To Cash                |          | 97,200          |          | By Vijay's Capital |          | 33,829   |          |    |
| To Ajay's Loan         |          | 58,686          |          | By Mohan's Capital |          | 8,457    |          |    |
| To Balance c/d         | 2,53,371 |                 | 1,18,343 |                    |          |          |          |    |
|                        | 3,24,000 | 1,74,286        | 1,36,000 |                    | 3,24,000 | 1,74,286 | 1,36,000 |    |

### Working Note

$$\text{Ajay's share of goodwill} = 1,48,000 \times \frac{2}{7} = 42,286$$

To be paid in gaining ratio by remaining partners

$$\text{Vijay's contribution} = 42,286 \times \frac{4}{5} = 33,829$$

$$\text{Mohan's contribution} = 42,286 \times \frac{1}{5} = 8,457$$

Gaining Ratio = New ratio – Old ratio

$$\text{Vijay's share} = \frac{4}{5} - \frac{4}{7} = \frac{28-20}{35} = \frac{8}{35}$$

$$\text{Mohan's share} = \frac{1}{5} - \frac{1}{7} = \frac{7-5}{35} = \frac{2}{35}$$

$$= 8 : 2$$

$$= 4 : 1$$

### Do it yourself III

1. The Balance Sheet of A, B and C who were sharing the profits in proportion to their capitals stood as on March 31, 2007.

**Balance Sheet**  
as on March 31, 2007

| Liabilities      |        | Amt. (₹) | Assets              |        | Amt. (₹) |
|------------------|--------|----------|---------------------|--------|----------|
| Bills Payable    |        | 6,250    | Land and Building   |        | 12,000   |
| Sundry Creditors |        | 10,000   | Debtors             | 10,500 |          |
| Reserve Fund     |        | 2,750    | (-) Provision       |        |          |
| Capitals         |        |          | for Bad Debts       | (500)  | 10,000   |
| A                | 20,000 |          | Bill Receivables    |        | 7,000    |
| B                | 15,000 |          | Stock               |        | 15,500   |
| C                | 15,000 | 50,000   | Plant and Machinery |        | 11,500   |
|                  |        |          | Cash at Bank        |        | 13,000   |
|                  |        | 69,000   |                     |        | 69,000   |

**B retired on the date of Balance Sheet and the following adjustments were to be made**

- (a) Stock was depreciated by 10%.
  - (b) Factory building was appreciated by 12%.
  - (c) Provision for doubtful debts to be created up to 5%.
  - (d) Provision for legal charges to be made at Rs. 265.
  - (e) The goodwill of the firm to be fixed at Rs. 10,000.
  - (f) The capital of the new firm to be fixed at Rs. 30,000. The continuing partners decide to keep their capitals in the new profit sharing ratio of 3:2.
- Work out the final balances in capital accounts of the firm and the amount to be brought in and/or withdrawn by A and C to make their capitals proportionate to the new profit sharing ratio.**

**Balance Sheet**  
as on March 31, 2007

| Liabilities      |        | Amt. (₹) | Assets              |        | Amt. (₹) |
|------------------|--------|----------|---------------------|--------|----------|
| Bills Payable    |        | 6,250    | Land and Building   |        | 12,000   |
| Sundry Creditors |        | 10,000   | Debtors             | 10,500 |          |
| Reserve Fund     |        | 2,750    | (-) Provision       |        |          |
| Capitals         |        |          | for Bad Debts       | (500)  | 10,000   |
| A                | 20,000 |          | Bill Receivables    |        | 7,000    |
| B                | 15,000 |          | Stock               |        | 15,500   |
| C                | 15,000 | 50,000   | Plant and Machinery |        | 11,500   |
|                  |        |          | Cash at Bank        |        | 13,000   |
|                  |        | 69,000   |                     |        | 69,000   |

| Dr                 |        |        |        | Partners' Capital Account |        |        |        | Cr          |   |   |   |
|--------------------|--------|--------|--------|---------------------------|--------|--------|--------|-------------|---|---|---|
| Particulars        | A      | B      | C      | Particulars               | A      | B      | C      | Particulars | A | B | C |
| To Revaluation A/c | 160    | 120    | 120    | By Balance b/d            | 20,000 | 15,000 | 15,000 |             |   |   |   |

|                           |        | 65,220   |                     |         | 65,220   |

**Working Note**

A : B : C

Old Ratio = 4 : 3 : 3

New Ratio = A : C

3 : 2

Gaining Ratio = New ratio – Old ratio

$$A = \frac{3}{5} - \frac{4}{10}$$

$$= \frac{6-4}{10} = \frac{2}{10}$$

$$C = \frac{2}{5} - \frac{3}{10}$$

$$= \frac{4-3}{10} = \frac{1}{10} = 2 : 1$$

Firms Goodwill = 10,000

$$B's \text{ share} = 10,000 \times \frac{3}{10} = 3,000$$

|                | 21,975 |                           | 13,158 |                          |        |        |        |
|                | 24,225 | 13,317                    | 13,908 |                          | 24,225 | 13,317 | 13,908 |

**Balance Sheet**  
as on March 31, 2011

| Liabilities |        | Amt. (₹) | Assets   |                  | Amt. (₹) |
|-------------|--------|----------|----------|------------------|----------|
| Creditors   |        | 16,000   | Building | (23,000 + 8,800) | 31,800   |
| S's Loan    |        | 8,317    | Debtors  | (7,000 – 350)    | 6,650    |
| Capital     |        |          | Stock    |                  | 12,000   |
| R           | 21,975 |          | Patents  |                  | 8,000    |
| M           | 13,158 | 35,133   | Bank     | (6,000 – 5,000)  | 1,000    |
|             |        | 59,450   |          |                  | 59,450   |

**Working Note**

$$\text{S's share of goodwill} = 9,000 \times \frac{2}{6} = 3,000$$

To be paid in gaining ratio by remaining partners.

$$\text{R's share} = 3,000 \times \frac{3}{4} = 2,250$$

$$\text{M's share} = 3,000 \times \frac{1}{4} = 750$$

### EXERCISE-3.3

4 Marks

1. On December 31, 2007, the Balance Sheet of Pinki, Qureshi and Rakesh showed as under

| <b>Balance Sheet</b> |        |                 |                   |
|----------------------|--------|-----------------|-------------------|
| as on March 31, 2007 |        |                 |                   |
| <b>Liabilities</b>   |        | <b>Amt. (₹)</b> | <b>Assets</b>     |
|                      |        |                 | <b>Amt. (₹)</b>   |
| Sundry Creditors     |        | 25,000          | Buildings         |
| Reserve Fund         |        | 20,000          | Investments       |
| Capitals             |        |                 | Debtors           |
| Pinki                | 15,000 |                 | Bills Receivables |
| Qureshi              | 10,000 |                 | Stock             |
| Rakesh               | 10,000 | 35,000          | Cash              |
|                      |        | 80,000          |                   |

The partnership deed provides that the profit be shared in the ratio of 2:1:1 and that in the event of death of a partner, his executors be entitled to be paid out

- (a) The capital of his credit at the date of last Balance Sheet.
- (b) His proportion of reserves at the date of last Balance Sheet.
- (c) His proportion of profits to the date of death based on the average profits of the last three completed years, plus 10%.
- (d) By way of goodwill, his proportion of the total profits for the three preceding years. The net profit for the last three years were

|      | Rs.    |
|------|--------|
| 2005 | 16,000 |
| 2006 | 16,000 |
| 2007 | 15,400 |

Rakesh died on April 1, 2007. He had withdrawn Rs. 5,000 to the date of his death. The investment were sold at par and R's Executors were paid off.

Prepare Rakesh's Capital Account that of his executors.

**Answer**

| Dr                     |          | Rakesh's Capital Account      |          | Cr |
|------------------------|----------|-------------------------------|----------|----|
| Particulars            | Amt. (₹) | Particulars                   | Amt. (₹) |    |
| To Drawings            | 5,000    | By Balance b/d                | 10,000   |    |
| To Rakesh's Executor's | 22,936   | By Reserve Fund               | 5,000    |    |
|                        |          | By Profit and Loss (Suspense) | 1,086    |    |
|                        |          | By Pinki's Capital            | 7,900    |    |
|                        |          | By Qureshi's Capital          | 3,950    |    |
|                        | 27,936   |                               | 27,936   |    |

| Dr             |          | Rakesh's Executor's Account |          | Cr |
|----------------|----------|-----------------------------|----------|----|
| Particulars    | Amt. (₹) | Particulars                 | Amt. (₹) |    |
| To Balance c/d | 22,936   | By Rakesh's Capital         | 22,936   |    |
|                | 22,936   |                             | 22,936   |    |

**Working Note**

$$\begin{aligned}
 \text{Profit and Loss} &= \frac{16,000 + 16,000 + 15,400}{3} \\
 &= \frac{47,400}{3} = 15,800 + 10\% \text{ of } 15,800 \\
 &= 15,800 + 1,580 \\
 &= 17,380
 \end{aligned}$$

$$= 17,380 \times \frac{1}{4} \times \frac{3}{12} = 1,086.25$$

$$\text{Pinki's Capital} = 15,800 \times \frac{2}{4} = 7,900$$

$$\text{Qureshi's Capital} = 15,800 \times \frac{1}{4} = 3,950$$

## **Short Answer Type s**

### **1. What are the different ways in which a partner can retire from the firm?**

**Answer** A partner can retire from the firm in three different ways. They are as follow

- (i) Retirement Through Mutual Consent A partnership firm take its shape through mutual consent of partners in the same way. A partner may retire if all the partners agree on the decision of his/her retirement.
- (ii) When There is a Provision in Partnership Deed When there is a provision for the retirement of a partner in the partnership deed in that case partner may retire from the firm by expressing his/her intention of leaving the firm though a notice to the other partners of the firm.
- (iii) Retirement Through Written Notice In case when partnership among the partners is at will, then a partner may retire by giving notice in writing to all the other partners informing them about his/her intention to retire.

### **2. Write the various matters that need adjustments at the time of retirement of partners.**

**Answer** The following are the various matters that need to be adjusted at the time of retirement of partners/partner

- (i) Revaluation of assets and liabilities of the new firm.
- (ii) Calculation of goodwill of the new firm and its accounting treatment.
- (iii) Calculation of new ratio of the remaining partners of the firm.
- (iv) Computation of new gaining ratio among rest of the partners.
- (v) Distribution of accumulated profits and losses and reserves among all the partners (including the retiring partner).
- (vi) Treatment of Joint Life Policy.
- (vii) Disposal of the amount due to the retiring partner
- (viii) Adjustment of capital accounts of the remaining partners in their new profit sharing ratio.

### 3. Distinguish between sacrificing ratio and gaining ratio.

**Answer** Difference between Sacrificing and Gaining Ratio

| Basis of Difference | Sacrificing Ratio   | Gaining Ratio  |
|---------------------|---|--|
| Objective           | It is calculated to ascertain the share of profit and loss given up by the existing partners in favour of new partners/partner. | It is calculated to ascertain the share of profit and loss acquired by the remaining partners (of the new firm in case of retirement) from the retiring or deceased partner. |
| Meaning             | It is the ratio in which old partners agree to sacrifice their share of profit in favour of new partners/partner.               | It is the ratio in which continuing partner acquires the share of profit from outgoing partner/partner   |
| Time                | It is calculated at the time of admission of new partners/partner.  | It is calculated at the time of retirement/death of old partners/partner.  |
| Calculation         | $\text{Sacrificing Ratio} = \text{Old Ratio} - \text{New Ratio}$ .  | $\text{Gaining Ratio} = \text{New Ratio} - \text{Old Ratio}$ .   |
| Effect              | It reduces the profit sharing ratio of the existing partners.   | It increases the profit sharing ratio of the remaining partners.   |

### 4. Why do firm revalue assets and reassess their liabilities on retirement or on the event of death of a partner?

**Answer** At the time of retirement or death of a partner, it becomes inevitable to revalue the assets and liabilities of the firm for ascertaining their true and fair values. The revaluation is necessary as the value of assets and liabilities may increase or decrease with the passage of time.

Further, it may be possible that there are certain assets and liabilities that remained unrecorded in the books of accounts. The retiring or the deceased partner may be benefitted or may bear loss due to change in the values of assets and liabilities. Therefore, the revaluation of the assets and liabilities is necessary in order to ascertain the true profit or loss that is to be divided among all the partners in their old profit sharing ratio.

### 5. Why a retiring/deceased partner is entitled to a share of goodwill of the firm?

**Answer** Goodwill is an intangible asset of a firm that is earned by the efforts of all the partners of the firm. After the retirement or death of a partner, the fruits of the past performance and reputation will be shared only by the remaining partners.

Thus, the remaining partners should compensate the retiring or the deceased partner by entitling him/her a share of firm's goodwill.

## Long Answer Type s

### 1. Explain the modes of payment to a retiring partner.

**Answer** Payment to a retiring partner can be made in the following ways

**(i) Lump Sum Payment :** A lump sum payment can be made to the retiring partner in full settlement. In that case, the following Journal entry will be passed

| Date | Particulars  | LF | Amt. (Dr) | Amt. (Cr) |
|------|--|----|-----------|-----------|
|      | Retiring Partner's Capital A/c <span style="float: right;">Dr</span><br>To Cash/Bank A/c<br>(Being payment made to the retiring partner) |    |           |           |

**(ii) Opening the Loan Account** Sometimes the amount due to the retiring partner is paid in instalments then the balancing figure of his/her capital account is transferred to his/her loan account, in this case, the retiring partner receives equal instalments along with the interest on the amount outstanding. In that case the following journal entries will be passed for transferring the amount paid to him/her in retiring partner's loan account.

| Date | Particulars   | LF | Amt. (Dr) | Amt. (Cr) |
|------|---|----|-----------|-----------|
|      | Retiring Partner's Capital A/c <span style="float: right;">Dr</span><br>To Retiring Partner's Loan A/c<br>(Being balance of retiring partner's capital account transferred to his/her loan account with such and such percentage of interest per annum) |    |           |           |

**(iii) Some Payment in Cash and Some in Instalment** Sometimes the amount due to the retiring partner is paid partly in cash and partly in equal instalments in that case a certain amount is paid in cash to the retiring partner and the rest amount due to him/her is transferred to his/her loan account. The following necessary journal

entry is to be passed.

| Date | Particulars   | LF | Amt. (Dr) | Amt. (Cr) |
|------|---|----|-----------|-----------|
|      | Retiring Partner's Capital A/c <span style="float: right;">Dr</span><br>To Cash/Bank A/c<br>To Retiring Partner's Loan A/c<br>(Being part payment made to retiring partner and<br>the balance amount transferred to his/her loan<br>account with such and such percentage of<br>interest per annum) |    |           |           |

## 2. How will you compute the amount payable to a deceased partner?

**Answer** In case of a death, the legal executor of the deceased partner is entitled for a claim which includes his share of profit or loss, interest on capital, interest on drawings In that case for computing the amount payable is calculated by preparing the deceased partner's capital account as follows

| Dr   |  |    |          | Cr   |   |    |          |
|------|--|----|----------|------|---|----|----------|
| Date | Particulars  | JF | Amt. (₹) | Date | Particulars   | JF | Amt. (₹) |
|      | To Revaluation A/c<br>(Loss)   |    |          |      | By Balance b/d  |    |          |
|      | To Profit and Loss<br>Suspense A/c<br>(Share of loss up to the<br>date of the death) |    |          |      | By Profit and Loss<br>Suspense A/c<br>(Share of profit up<br>to the date of<br>the death) |    |          |
|      | To Accumulated Losses<br>A/c   |    |          |      | By Goodwill   |    |          |
|      | To Goodwill A/c<br>(Written off)   |    |          |      | By Reserves and<br>Profits  |    |          |
|      | To Partner Executor's<br>A/c (Payment due)   |    |          |      | By Revaluation<br>A/c (gain)  |    |          |
|      | (Balancing Figure)   |    |          |      | By Joint Life<br>Policy A/c   |    |          |
|      |  |    |          |      | By Interest on<br>Capital A/c   |    |          |
|      |  |    |          |      | By Salary A/c   |    |          |
|      |  |    |          |      | By Commission<br>A/c  |    |          |

**Note** In the above capital account, the legal executor will be entitled for the balancing figure that is the excess of the credit side over the debit side of the deceased partner's capital account

**Note:** In the above capital account, the legal executor will be entitled for the balancing figure that is the excess of the credit side over the debit side of the deceased partner's capital account.

**3. Explain the treatment of goodwill at the time of retirement or on the event of death of a partner.**

**Answer** At the time of retirement or is the event of death of a partner, the goodwill of the firm is adjusted among the partners in their gaining ratio with the share of goodwill of the retiring or the deceased partner. At the time of retirement or on the event of death of a partner, goodwill account is not opened hence only two situations are left for treating the goodwill first when goodwill account is already there in the book or it appear in the books and second when the amount of goodwill is not appearing in the books.

The treatment of goodwill will be as follows in the above two situations

First Situation When Goodwill Already Appears in the Books of the Firm

**Step 1** Write-off the Existing Goodwill When goodwill account already exist in the book of the firm or mentioned in the book first of all, it will be written oft and should be distributed among all the partners of the firm including the retiring or the deceased partner in their old profit sharing ratio. In that case, the journal entry will be as follows

| Date | Particulars  | LF | Amt. (Dr) | Amt. (Cr) |
|------|--|----|-----------|-----------|
|      | All Partner's Capital A/c<br>To Goodwill A/c<br>(Being goodwill written off among all the partners<br>in their profit sharing ratio) | Dr |           |           |

**Step 2** Adjusting Goodwill Through Partners' Capital Account

After writing off the old goodwill, the amount of goodwill now needs to be adjusted through the partner's capital account with the share of the goodwill of the retiring or the deceased partner. The following journal entry is passed.

| Date | Particulars  | LF | Amt. (Dr) | Amt. (Cr) |
|------|--|----|-----------|-----------|
|      | Remaining Partners' Capital A/c Dr<br>To Retiring/Deceased Partner's Capital A/c<br>(Being existing partner's capital account is debited<br>in their gaining ratio and retiring/deceased<br>partner's capital account is credited) |    |           |           |

Second Situation When No Goodwill Appears in the Books of the Firm

In second case, when no goodwill appears in the books of the firm, the amount of goodwill will be adjusted through the partner's capital account with the share of the goodwill of the retiring or the deceased partner. The following journal entry is passed

| Date | Particulars  | LF | Amt. (Dr) | Amt. (Cr) |
|------|--|----|-----------|-----------|
|      | Remaining Partner's Capital A/c Dr<br>To Retiring /Deceased Partner's Capital A/c<br>(Being existing partner's capital account is debited<br>in their gaining ratio and retiring/<br>deceased partner's capital account is credited) |    |           |           |

#### 4. Discuss the various methods of computing the share in profits in the event of death of a partner.

**Answer** Computation of profit will be different in case of death of a partner as compare to the retirement. The reason is that in case of retirement everything is pre-planned but in case of death nothing is planned. In case of death, the share of profit can be calculated by one of the two methods.

##### (i) On the Basis of Time

In this method, profit upto the date of the death of the partner is calculated on the basis of time passed till the death of the partner from the beginning of the year on the bases of the last year's/years' profit or average profit of last few years.

The assumption in this method is that the profit will be uniform throughout the

current year. The share of the deceased partner profit will be calculated as follows

**Share of Deceased Partner in Profit Previous Year/Average Profit**

Time period from date of balance sheet till death

12 months / 52 weeks / 365 days

× Profit share of deceased partner

Example A, B, C and D are equal partners. The profit of the firm for the years 2009, 2010 and 2011 are ₹ 5,00,000, ₹ 7,00,000 and ₹ 9,00,000 respectively. C dies on June 30, 2012. The share of C in the firm's profit will be calculated on the basis of average profit of last three years. Firm closes its books every year on December 31.

In this case, C's share in the profits will be calculated for four months. i.e., from January 1, 2012

$$\text{Average Profit} = \frac{5,00,000 + 7,00,000 + 9,00,000}{3} = ₹ 7,00,000$$

$$\text{C's Share of Profit} = 7,00,000 \times \frac{6}{12} \times \frac{1}{4} = ₹ 87,500$$

## (ii) On the Basis of Sale

In this method, profit up to the date of the death of the partner is calculated on the basis of sales affected till the date of the death of the partner from the beginning of the year. The assumption in this method is that the net profit margin for current year will be same as the previous year. The share of the deceased partner profit will be calculated as follows

$$= \frac{\text{Previous Year's Profit}}{\text{Previous Year's Sales}} \times \text{Sales from the beginning of the current year up to the date of death} \times \text{Share of deceased partner}$$

Example A, B and C are equal partners. The last year's sales and profit were ₹ 40,00,000 and ₹ 4,00,000. C died on June, 2012. Sales of the current year till the date of C's death amounts to ₹ 15,00,000. Firm closes its books on December 31

every year.

**Example** A, B and C are equal partners. The last year's sales and profit were ₹ 40,00,000 and ₹ 4,00,000. C died on June, 2012. Sales of the current year till the date of C's death amounts to ₹ 15,00,000. Firm closes its books on December 31 every year.

$$\text{C's Share of Profit} = \frac{4,00,000}{40,00,000} \times 15,00,000 \times \frac{1}{3} = ₹ 50,000$$

### Numerical s

1. Aparna, Manisha and Sonia are partners sharing profits in the ratio of 3 : 2 :1. Manisha retires and goodwill of the firm is valued at Rs. 1,80,000. Aparna and Sonia decided to share future profits in the ratio of 3 : 2. Pass necessary journal entries.

| Date | Particulars   | LF | Amt. (Dr) | Amt. (Cr) |
|------|---|----|-----------|-----------|
|      | Aparna's Capital A/c Dr   |    | 18,000    |           |
|      | Sonia's Capital A/c Dr  |    | 42,000    |           |
|      | To Manisha's Capital A/c  |    |           | 60,000    |
|      | ( Being Manisha's share of goodwill adjusted to remaining partners capital account in gaining ratio ) |    |           |           |

### Working Note

$$\text{Manisha's share in goodwill} = 1,80,000 \times \frac{2}{6} = ₹ 60,000$$

$$\text{Gaining ratio} = \text{New ratio} - \text{Old ratio}$$

$$\text{Aparna} = \frac{3}{5} - \frac{3}{6} = \frac{18-15}{30} = \frac{3}{30}$$

$$\text{Sonia} = \frac{2}{5} - \frac{1}{6} = \frac{12-5}{30} = \frac{7}{30}$$

or 3 : 7

$$\text{Aparna's share of goodwill} = 60,000 \times \frac{3}{10} = ₹ 18,000$$

$$\text{Sonia's share of goodwill} = 60,000 \times \frac{7}{10} = ₹ 42,000$$

2. Sangeeta, Saroj and Shanti are partners sharing profits in the ratio of 2 : 3 : 5. Goodwill is appearing in the books at a value of Rs. 60,000. Sangeeta retires and goodwill is valued at Rs. 90,000. Saroj and Shanti decided to share future profits equally. Record necessary journal entries.

#### Journal Entries

| Date | Particulars  | LF | Amt. (Dr) | Amt. (Cr) |
|------|--|----|-----------|-----------|
|      | Sangeeta's Capital A/c Dr  |    | 12,000    |           |
|      | Saroj's Capital A/c Dr   |    | 18,000    |           |
|      | Shanti's Capital A/c Dr  |    | 30,000    |           |
|      | To Goodwill A/c  |    |           | 60,000    |
|      | (Being existing goodwill written off among old partners in old ratio)                          |    |           |           |
|      | Saroj's Capital A/c Dr   |    | 18,000    |           |
|      | To Sangeeta's Capital A/c  |    |           | 18,000    |
|      | (Being Sangeeta's share of goodwill is adjusted from Saroj's capital account in gaining ratio) |    |           |           |

#### Working Note

Sangeeta's share of goodwill = Total goodwill of firm × Retiring partners' share

$$= 90,000 \times \frac{2}{10} = ₹ 18,000$$

Gaining ratio = New ratio – Old ratio

$$\text{Saroj's gaining ratio} = \frac{1}{2} - \frac{3}{10} = \frac{5-3}{10} = \frac{2}{10}$$

$$\text{Shanti's gaining ratio} = \frac{1}{2} - \frac{5}{10} = \frac{5-5}{10} = 0$$

Hence, goodwill will be adjusted from Saroj's capital account to Sangeeta's capital account.

3. Himanshu, Gagan and Naman are partners sharing profits and losses in the ratio of 3 : 2 : 1. On March 31, 2007, Naman retires. The various assets and liabilities of the firm on the date were as follows: Cash Rs. 10,000, Building Rs. 1,00,000, Plant and Machinery Rs. 40,000, Stock Rs. 20,000, Debtors Rs. 20,000 and Investments Rs. 30,000.

The following was agreed upon between the partners on Naman's retirement:

- (i) Building to be appreciated by 20%.
- (ii) Plant and Machinery to be depreciated by 10%.

(iii) A provision of 5% on debtors to be created for bad and doubtful debts.

(iv) Stock was to be valued at Rs. 18,000 and Investment at Rs. 35,000.

Record the necessary journal entries to the above effect and prepare the revaluation account.

|      | (Being profit and loss distributed among all partners in old ratio) |    |           |           |

5. Digvijay, Brijesh and Parakaram were partners in a firm sharing profits in the ratio of 2 : 2 : 1 Their Balance Sheet as on March 31, 2007 was as follows

| Liabilities         | Amt. (₹)        | Assets    | Amt. (₹)        |
|---------------------|-----------------|-----------|-----------------|
| Creditors           | 49,000          | Cash      | 8,000           |
| Reserves            | 18,500          | Debtors   | 19,000          |
| Digvijay's Capital  | 82,000          | Stock     | 42,000          |
| Brijesh's Capital   | 60,000          | Buildings | 2,07,000        |
| Parakaram's Capital | 75,500          | Patents   | 9,000           |
|                     | <u>2,85,000</u> |           | <u>2,85,000</u> |

Brijesh retired on March 31, 2007 on the following terms

(i) Goodwill of the firm was valued at ₹ 70,000 and was not to appear in the books.

(ii) Bad debts amounting to ₹ 2,000 were to be written off.

(iii) Patents were considered as valueless.

Prepare revaluation account, partners' capital accounts and the balance sheet of Digvijay and Parakaram after Brijesh's retirement

**Answer**

| Dr           |          | Revaluation Account                    |           | Cr     |

### Balance Sheet

Dr as on 31 March, 2007 (New Firm) Cr

| Liabilities             | Amt. (₹) | Assets        | Amt. (₹) |
|-------------------------|----------|---------------|----------|
| Creditors               | 49,000   | Cash          | 8,000    |
| Brijesh's Loan          | 91,000   | Debtors       | 19,000   |
| Digvijay's Capital A/c  | 66,333   | (-) Bad Debts | (2,000)  |
| Parakaram's Capital A/c | 67,667   | Stock         | 42,000   |
|                         |          | Buildings     | 2,07,000 |
|                         | 2,74,000 |               | 2,74,000 |

**Note** If no information is given, the amount due to Brijesh (the balance of his capital account) is transferred to his loan account.

**Note:** If no information is given, the amount due to Brijesh (the balance of his capital account) is transferred to his loan account.

#### Working Note

$$\begin{aligned} \text{Brijesh's share of goodwill} &= \text{Goodwill of firm} \times \text{His profit share} \\ &= 70,000 \times \frac{2}{5} = ₹ 28,000 \end{aligned}$$

$$\text{Gaining ratio} = \text{New ratio} - \text{Old ratio}$$

$$\text{Digvijay's gain} = \frac{2}{3} - \frac{2}{5} = \frac{10-6}{15} = \frac{4}{15}$$

$$\text{Parakaram's gain} = \frac{1}{3} - \frac{1}{5} = \frac{5-3}{15} = \frac{2}{15} \text{ or } 4 : 2 \text{ or } 2 : 1$$

Brijesh's share of goodwill to be contributed by remaining partners in gaining ratio.

$$\text{Digvijay} = 28,000 \times \frac{2}{3} = ₹ 18,667; \text{ Parakaram} = 28,000 \times \frac{1}{3} = ₹ 9,333$$

**6. Radha, Sheela and Meena were in partnership sharing profits and losses in the proportion of 3:2:1. On April 1, 2007, Sheela retires from the firm. On that date, their Balance Sheet was as follows:**

| Liabilities     |        | Amt. (₹) | Assets           |  | Amt. (₹) |
|-----------------|--------|----------|------------------|--|----------|
| Trade Creditors |        | 3,000    | Cash in Hand     |  | 1,500    |
| Bills Payable   |        | 4,500    | Cash at Bank     |  | 7,500    |
| Expenses Owing  |        | 4,500    | Debtors          |  | 15,000   |
| General Reserve |        | 13,500   | Stock            |  | 12,000   |
| Capitals        |        |          | Factory Premises |  | 22,500   |
| Radha           | 15,000 |          | Machinery        |  | 8,000    |
| Sheela          | 15,000 |          | Loose Tools      |  | 4,000    |
| Meena           | 15,000 | 45,000   |                  |  |          |
|                 |        | 70,500   |                  |  | 70,500   |

The terms were

- Goodwill of the Firm was valued at ? 13,000.
- Expenses owing to be brought down to ? 3,750.
- Machinery and Loose Tools are to be valued at 10% less than their book value.
- Factory premises are to be revalued at ? 24,300.

Prepare

- Revaluation account
- Partners' capital accounts
- Balance sheet of the firm after retirement of Sheela

| Bills Payable   | 4,500    | Cash at Bank     | 7,500    |
| Expenses Owning | 3,750    | Debtors          | 15,000   |
| Sheela's Loan   | 24,283   | Stock            | 12,000   |
| Capitals        |          | Factory Premises | 24,300   |
| Radha           | 19,175   | Machinery        | 8,000    |
| Meena           | 16,392   | (-) 10%          | (800)    |
|                 |          | Loose Tools      | 4,000    |
|                 |          | (-) 10%          | (400)    |
|                 | 71,100   |                  | 71,100   |

### Working Note

(i) General reserve is to be written off among all partners in old profit sharing ratio.

(ii) Sheela's share of goodwill =  $13,000 \times \frac{2}{6} = ₹ 4,333$

(iii) Gaining ratio of remaining partner's

$$\text{Radha's gain} = \frac{3}{4} - \frac{3}{6} = \frac{9-6}{12} = \frac{3}{12}$$

$$\text{Meena's gain} = \frac{1}{4} - \frac{1}{6} = \frac{3-2}{12} = \frac{1}{12}$$

or 3 : 1

(iv) Contribution for goodwill of retiring partner by remaining partners

$$\text{Radha} = 4,333 \times \frac{3}{4} = ₹ 3,250$$

$$\text{Meena} = 4,333 \times \frac{1}{4} = ₹ 1,083$$

7. Pankaj, Naresh and Saurabh are partners sharing profits in the ratio of 3 : 2 :

1. Naresh retired from the firm due to his illness. On that date the Balance Sheet of the firm was as follows:

| <b>Balance Sheet</b>        |                 |                      |                 |
|-----------------------------|-----------------|----------------------|-----------------|
| Dr                          |                 | as on March 31, 2007 | Cr              |
| <b>Liabilities</b>          | <b>Amt. (₹)</b> | <b>Assets</b>        | <b>Amt. (₹)</b> |
| General Reserve             | 12,000          | Bank                 | 7,600           |
| Sundry Creditors            | 15,000          | Debtors              | 6,000           |
| Bills Payable               | 12,000          | (-) Provision for    | (400)           |
| Outstanding Salary          | 2,200           | Doubtful Debts       |                 |
| Provision for Legal Damages | 6,000           | Stock                | 9,000           |
| Capitals                    |                 | Furniture            | 41,000          |
| Pankaj                      | 46,000          | Premises             | 80,000          |
| Naresh                      | 30,000          |                      |                 |
| Saurabh                     | 20,000          |                      |                 |
|                             | <u>96,000</u>   |                      |                 |
|                             | <u>1,43,200</u> |                      | <u>1,43,200</u> |

### Additional Information

(i) Premises have appreciated by 20%, stock depreciated by 10% and provision for doubtful debts was to be made 5% on debtors. Further, provision for legal damages is to be made for Rs. 1,200 and furniture to be brought up to Rs. 45,000.

(ii) Goodwill of the firm be valued at Rs. 42,000.

(iii) Rs. 26,000 from Naresh's Capital account be transferred to his loan account and balance be paid through bank; if required, necessary loan may be obtained from Bank.

(iv) New profit sharing ratio of Pankaj and Saurabh is decided to be 5 :1.

Give the necessary ledger accounts the balance sheet of the firm after Naresh's retirement.

### Working Note

(i) General reserve is to be distributed among all partner's in old ratio.

(ii) Naresh's share of goodwill =  $42000 \times \frac{2}{6} = ₹14,000$

(iii) Gaining ratio of remaining partner's

$$\text{Pankaj's gain} = \frac{5}{6} - \frac{3}{6} = \frac{5-3}{6} = \frac{2}{6}; \text{Saurabh's gain} = \frac{1}{6} - \frac{1}{6} = 0$$

Only Pankaj has gained on Naresh's retirement. Hence, contribution of goodwill for retiring partner will be made by Pankaj.

8. Puneet, Pankaj and Pammy are partners in a business sharing profits and losses in the ratio of 2 : 2 : 1 respectively. Their balance sheet as on March 31, 2007 was as follows:

**Balance Sheet**  
as on March 31, 2007

| <b>Liabilities</b>                 | <b>Amt. (₹)</b> | <b>Assets</b>  | <b>Amt. (₹)</b> |
|------------------------------------|-----------------|----------------|-----------------|
| Sundry Creditors                   | 1,00,000        | Cash at Bank   | 20,000          |
| Capital Accounts                   |                 | Stock          | 30,000          |
| Puneet                      60,000 |                 | Sundry Debtors | 80,000          |
| Pankaj                     100,000 |                 | Investments    | 70,000          |
| Pammy                    40,000    | 2,00,000        | Furniture      | 35,000          |
| Reserve                            | 50,000          | Buildings      | 1,15,000        |
|                                    | <u>3,50,000</u> |                | <u>3,50,000</u> |

Mr. Pammy died on September 30, 2007. The partnership deed provided the following:

(i) The deceased partner will be entitled to his share of profit up to the date of death calculated on the basis of previous year's profit.

(ii) He will be entitled to his share of goodwill of the firm calculated on the basis of 3 years' purchase of average of last 4 years' profit. The profits for the last four financial years are given below:

for 2003–04; Rs. 80,000; for 2004–05, Rs. 50,000; for 2005–06, Rs. 40,000; for 2006–07, Rs. 30,000.

The drawings of the deceased partner up to the date of death amounted to Rs. 10,000. Interest on capital is to be allowed at 12% per annum.

Surviving partners agreed that Rs. 15,400 should be paid to the executors immediately and the balance in four equal yearly instalments with interest at 12% p.a. on outstanding balance.

Show Mr. Pammy's Capital account, his Executor's account till the settlement

of the amount due

### Working Note

- (i) Pammy's share of profit = Previous years' profit × Period till date of death × Deceased partner's share

$$= 30,000 \times \frac{6}{12} \times \frac{1}{5} = ₹ 3,000$$

- (ii) Pammy's share of goodwill =

Firm's goodwill × Deceased partner's share

Firm's goodwill = Average profit × Number of purchase years.

$$= \frac{80,000 + 50,000 + 40,000 + 30,000}{4} \times 3$$

$$= \frac{2,00,000}{4} \times 3 = 50,000 \times 3 = ₹ 1,50,000$$

$$\text{Deceased partner's share} = 1,50,000 \times \frac{1}{5} = ₹ 30,000$$

(iii) Gaining Ratio If no information is given, old ratio of remaining partners is considered as gaining ratio. Thus, here gaining ratio is 2:2 or 1:1.

(iv) Contribution of remaining partners for deceased

$$\text{partner's goodwill} = \text{Puneet} \Rightarrow 30,000 \times \frac{1}{2} = ₹ 15,000$$

(v) Calculation of Instalments Amount Due to Pammy's Executor after paying some amount in cash was Rs.60,000 (= 75,400 -15,400) divided in 4 equal instalments (i.e., 60,000/4 = Rs. 15,000 each).

(vi)

### Calculation of Interest

| Year    | Amount Due | Duration | Interest |
|---------|------------|----------|----------|
| 2003-04 | 60,000     | 6 months | 3,600    |
| 2004-05 | 60,000     | 6 months | 3,600    |
|         | 45,000     | 6 months | 2,700    |
| 2005-06 | 45,000     | 6 months | 2,700    |
|         | 30,000     | 6 months | 1,800    |
| 2006-07 | 30,000     | 6 months | 1,800    |
|         | 15,000     | 6 months | 900      |
| 2007-08 | 15,000     | 6 months | 900      |

9. Following is the Balance Sheet of Prateek, Rockey and Kushal as on March 31, 2007.

Rockey died on June 30, 2007. Under the terms of the partnership deed, the executors of a deceased partner were entitled to

- Amount standing to the credit of the Partner's capital account.
- Interest on capital at 5% per annum.
- Share of goodwill on the basis of twice the average of the past three years' profit.
- Share of profit from the closing date of the last financial year to the date of death on the basis of last year's profit.

Profits for the year ending on March 31, 2005, March 31, 2006 and March 31, 2007 were Rs. 12,000, Rs. 16,000 and Rs.14,000 respectively. Profits were shared in the ratio of capitals.

Pass the necessary journal entries and draw up Rockey's capital account to be

rendered to his executor.

### Working Note

(i) Rocky's share of goodwill

$$\text{Firm's goodwill} = \frac{12,000 + 16,000 + 14,000}{3} \times 2$$

$$= \frac{42,000}{3} \times 2 = ₹ 28,000$$

$$\text{Deceased Partner's share} = 28,000 \times \frac{2}{7} = ₹ 8,000$$

(ii) Share of Profit = Previous years' Profit × Period till date of death  
× Deceased partner's share

$$= 14,000 \times \frac{3}{12} \times \frac{2}{7} = ₹ 1,000$$

(iii) Gaining Ratio will be same as old ratio because no information is given i.e., 3 : 2.

(iv) Contribution of remaining partners in deceased partner's share of goodwill

$$\text{Prateek} = 8000 \times \frac{3}{5} = ₹ 4,800$$

$$\text{Kushal} = 8000 \times \frac{2}{5} = ₹ 3,200$$

(v) Interest on capital for 3 months =  $20,000 \times \frac{5}{100} \times \frac{3}{12} = ₹ 250$

10. Narang, Suri and Bajaj are partners in a firm sharing profits and losses in proportion of 1 2 , 1 6 and 1 3 respectively. The Balance Sheet on April 1, 2007 was as follows:

**Balance Sheet**  
as on March 31, 2007

| Liabilities      | Amt. (₹) | Assets                      | Amt. (₹) |
|------------------|----------|-----------------------------|----------|
| Bills Payable    | 12,000   | Freehold Premises           | 40,000   |
| Sundry Creditors | 18,000   | Machinery                   | 30,000   |
| Reserves         | 12,000   | Furniture                   | 12,000   |

|                  | 1,30,000 |                             | 1,30,000 |

Bajaj retires from the business and the partners agree to the following

(a) Freehold premises and stock are to be appreciated by 20% and 15% respectively.

(b) Machinery and furniture are to be depreciated by 10% and 7% respectively.

(c) Bad Debts reserve is to be increased to Rs. 1,500.

(d) Goodwill is valued at Rs. 21,000 on Bajaj's retirement.

(e) The continuing partners have decided to adjust their capitals in their new profit sharing ratio after retirement of Bajaj. Surplus/deficit, if any, in their capital accounts will be adjusted through current accounts.

|                                | 1,51,960 |                          | 1,51,960 |

### Working Note

- (i) Bajaj's share in goodwill = Firm good will  $\times$  His share

$$= 21,000 \times \frac{2}{6} = ₹ 7,000$$

- (ii) Gaining ratio = 3 : 1 (same as old ratio because no information is given).

- (iii) Contribution of remaining partners in retiring partners goodwill

$$\text{Share of Narang} = 7,000 \times \frac{3}{4} = ₹ 5,250$$

$$\text{Share of Suri} = 7,000 \times \frac{1}{4} = ₹ 1,750$$

- (iv) Calculation of New Capital of remaining partners.

Capital after adjustments

|                     |   |               |
|---------------------|---|---------------|
| Narang              | = | 34,230        |
| Suri                | = | 31,410        |
| Capital of New firm | = | <u>65,640</u> |

- (v) Share of Capital in New ratio of remaining partner

$$\text{Narang's New capital} = 65,640 \times \frac{3}{4} = ₹ 49,230$$

$$\text{Suri's New capital} = 65,640 \times \frac{1}{4} = ₹ 16,410$$

- (vi) Profit sharing ratio of old partners

$$= \frac{1}{2} : \frac{1}{6} : \frac{1}{3} = \frac{3 : 1 : 2}{6} = 3 : 1 : 2$$
